SUMMARY

Senior Product Designer with 9+ years of experience designing user-centered digital products across **mobile, web, SaaS, POS, and gaming platforms**. Experienced in leading end-to-end product design, building scalable design systems, and collaborating with engineering and product teams to accelerate delivery and improve user engagement. Proficient in leveraging **AI-powered design tools** to streamline UX research and UI Design Process. Holds a **B.S. in Software Engineering** and a **Google UX Design Certification**, with a proven track record of driving user engagement, product adoption, and business growth.

PROFESSIONAL EXPERIENCE

Senior Product Designer (UI/XU)

Jul 2025 – Present

Cygnus Payment

Freelance Product Designer & Game Designer

Jan 2020 – Present

Upwork

Senior Product Designer (UI/XU)

Sep 2021 – Nov 2024

360SynergyTech, Pakistan

- Reduced development time by 25%, saving approximately \$5,000 per project, by delivering developer-ready wireframes and interactive prototypes.
- Partnered closely with product managers, developers, and stakeholders to define product requirements, streamline design-to-development workflows, and ensure pixel-perfect implementation across multiple releases.
- Mentored junior designers and interns, promoting UX best practices and improving overall team performance.
- Conducted user research, usability testing, and iterative design validation to make data-informed design decisions that enhanced user experience and product adoption.

Senior UI/UX Designer

Jul 2022 – Jun 2023

Fifty Cats, (Remote, Canada)

- Led the end-to-end UX/UI design for two successfully launched casino games, from wireframes and prototypes to final production-ready designs.
- Conducted user research and usability testing to validate design decisions, improving gameplay experience and user engagement.

Team Lead, Gaming Dept. (UI/UX)

Oct 2018 – May 2020

Argon Tech, Pakistan

- Led project planning, estimation, and cross-functional execution, improving delivery timelines by 20% through effective resource and stakeholder management.
- Defined the game's UX vision by creating comprehensive Game Design Documents (GDDs), UI/UX specifications, and feature documentation that aligned stakeholders and streamlined development.
- Designed and implemented engaging gameplay experiences and UI features, contributing to a 30% increase in player retention and higher in-game purchase revenue.

Game Graphics Designer

Sep 2017 – Oct 2018

Argon Tech, Pakistan

- Designed UI/UX concepts and interface assets for PC and mobile games, contributing to intuitive player experiences and improved engagement.
- Designed game UI assets and interactive interfaces while collaborating with game designers to improve gameplay experience.

CORE SKILLS

- **Product Design Strategy:** Product design, UI/UX design, User-centered design, Interaction design, Product discovery
- **Technical Skills:** Prototyping (Figma), Accessibility standards, Design handoff, Figma component libraries, Design QA
- **Research & Validation (AI-Assisted):** User research, Usability testing, A/B testing, UX audits, Design documentation.
- **Leadership & Collaboration:** Cross-Functional Collaboration, Stakeholder Management, Team Leadership & Mentoring, Game Design Documentation, Software Project Management

EDUCATION

B.S. Software Engineering

University of Management and Technology 2012 – 2016

Relevant coursework: Human-Computer Interaction, Software Requirement Gathering, Software Project Management

CERTIFICATIONS

- Google UX Design Professional Certificate

HONORS & AWARDS

- The Brainiac Award — 360SynergyTech, 2023
- Employee of the Year 2021 — 360SynergyTech, 2022
- Star Performer in Gaming Dept. 2019 — Argon Tech, 2020
